Turnkey Display Solutions
factorydisplay.com

Kamal & Co are one of the best designers and sellers of Electronic boards & Display Systems.

Based in Chennai, Kamal & Co's products are used in various industries including Manufacturing, Distribution, Trading, Services etc.,

Kamal & Co is known across India for Quality Products, Reasonable price, Speed in Delivery, and Excellent after sales service.

The core activities of the company are in:

Organizezy® Document management systems. Organizezy is a practical tool that can be used in any situation where quantities of important information are needed. Available in A0 / A1 / A2 / A3 / A4 / A5 / A6 / A7 folder formats, information can be easily accessed with these data systems. Operation manuals, Standard Procedures, Recurring Data, Reference Codes, Price Lists, Stock Levels can be referred easily with the flip of a finger.

It is a must to improve Product Quality, Employee Productivity & building Customer Relationship.

fixovision - LED based displays. Kamal & Co provides LED displays, LED signs and ANDON systems for lean manufacturing solutions that will help your company control costs and improve production. From large LED counters to large LED timers to large LED production scoreboards, these digital displays will automate your information gathering processes. Realize immediate improvements in productivity and cost savings.

fixosign® - Educational & Training aids inc. White boards, Notice boards, Magnetic boards, etc.

factorydisplay - Material handling systems including Material Trolleys, Bins, Racks, Gravity Two Bin Skate Wheel Trolleys, Tool Racks etc.

Exhibition display systems including Instant booth, Flash display, P.O.P's etc.,

Fixovision™ LED boards display real-time production and inventory status, enhancing visual communication and increasing production efficiency. They strengthen the visibility and effectiveness of safety and employee communications messages. The **Fixovision™** LED displays are a leading means of achieving the **Visual Factory**.

Factory Signage Goes Electronic

In today's business climate, communication needs have to be instantaneous, interactive and proactive allowing employees to create timely decisions based on up-to-the-minute facts of the manufacturing process as it *massages* raw materials into a properly managed production cycle of finished goods.

LEDs' Light The Way

Fixovision™ LED boards receive real time information Via., RF, GSM, RS-232, RS-485, TCP/IP from a variety of devices, PLC's, Networks, HMI, Software and other data sources. A centralized larger display provides plant-wide statistics while smaller signs provide information at the line level. Displayed messages include production goals (e.g production count, cycle time), current production statistics, and percent of goal, the number of rejected or defective parts, Down Time and other pertinent information.

Fixovision™ LED boards are used to display a variety of information, some of which are listed in the following pages.

Kamal & Co - Ideas Unlimited

LED Railway Coach Guidance System

**We Offer Complete Range
Of Solutions For Train
Information Display Including**

- 1) Coach Name / Train / Destination Display on the Platform.(Coach Guidance)
- 2) Coach Name / Train / Destination Display on the Coach.
- 3) Consolidated Coach Display at the start of the Platform.
- 4) Train Arrival and Departure information Boards.
- 5) The hardware can be built to any specification, from ruggedness to Water and Tamper resistance etc like IP65.
- 6) The Boards can be driven using RS422 / RS485 or Ethernet / Wifi.
- 7) We offer Red, Red+Green or Full Color boards.

LED : 001

Kamal & Co . +91-44-28140814 , +91 98410 73410, Chennai

LED Bus Destination Display

PASSENGER INFORMATION SYSTEM

- 1) Bus Mounted LED Destination Displays on the front and Back.
 - 2) Passenger Information System inside the Bus.
 - 3) Passenger Information Systems at the Bus Stops about arriving buses.
 - 4) Passenger Information Systems at the Bus Terminus all the Arriving Departing /buses.
- ❖ The hardware can be built to any specification, from ruggedness to Water and Tamper resistance etc like IP65.
 - ❖ The Boards can be driven using RS422 / RS485 or Ethernet / Wifi.
 - ❖ The units can also be controlled remotely using a GPRS / 3G Data Terminal Unit.
 - ❖ We offer Red, Red+Green or Full Color boards.

Code : E 037 Kamal & Co . +91-44-28140814 , +91 98410 73410, Chennai

LED Network Clocks

Networked Clocks (Master Slave) LAN / RS485 / GPS Clock

- 1) Real Time Clock based Operation for Accuracy. TXCO Oscillator for the Clock so is resistant to drifts due to temperature variations.
- 2) Easily Configurable LAN for efficient working (for LAN clock). CAN USE NTP SERVER TIME OR PC TIME
- 3) Real Time Clock Settings through LAN or RS485
- 4) Industry Standard Housing and Mounting Arrangement
- 5) Individual Time Settings as per IP Identification (for LAN clock)
- 6) AC Power, 230V, 50Hz
- 7) Battery Backup to ensure working in Power Failure period (clock will not show display during power failure, but will maintain time and will show correct time once power is restored)
- 8) Display sizes (approx) - 4.3"/110mm, 9"/230mm, 18"/460mm

Code : E 036 Kamal & Co. +91-44-28140814, +91 98410 73410, Chennai

LED Pollution Display Boards

We offer end to end solutions for displaying Pollution displays

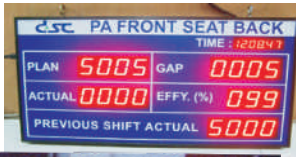

POLLUTANT LEVEL IN MICROGRAM / CUBIC METRE	STATION NAME					PRESCRIBED STANDARD MICROGRAM CUBICMETRE
	ANNA NAGAR	ADAJAR	KILPAUK	T. NAGAR	MUNGAMBALAM	
SO ₂	1234	5678	9012	3456	7890	80
NO ₂	1234	5678	9012	3456	7890	80
PM ₁₀	1234	5678	9012	3456	7890	100
PM _{2.5}	1234	5678	9012	3456	7890	60

COME TO TNPCB

- 1) The Data can be read Directly from A2D converters connected to Sensors.
- 2) The Data can be read from an EXCEL File periodically. The Data can be read from an a Webservice (Website) that has the pollution data.
- 3) We can display any number of parameters in either a templated board (Labels are printed) on in a general purpose LED board where the Labels are also displayed in the LED Display.
- 4) The hardware can be built to any specification, from ruggedness to Water and Tamper resistance etc like IP65.
- 5) The Boards can be driven using RS422 / RS485 or Ethernet / Wifi.
- 6) The units can also be controlled remotely using a GPRS/3G Data Terminal Unit.
- 7) We offer Red, Red+Green or Full Color boards.
- 8) Our solutions also includes the software for driving the boards with minimal human intervention. The software is written to be easy and intuitive to use.

Code : E 005 Kamal & Co. +91-44-28140814, +91 98410 73410, Chennai

LED Production display, TAKT and Andon displays

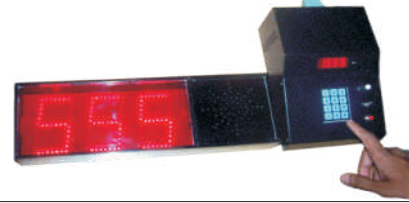

We offer end to end solutions for tracking production data and displaying them.

- 1) Shifts, Breaks, Target can be set.
- 2) Real-time Plan can be calculated based on TAKT / Cycle time.
- 3) Actual can be measured from a Potential free contact or a Relay or Read from an Excel file.
- 4) The boards can include the following items among many other fields including Target, Actual, Real-time Plan, Gap, Efficiency, Date / Time, Cycle Time, TAKT, Hourly Plan Vs Actual, MTD and YTD Plan Vs Actual etc.
- 5) We can display any number of parameters in either a template board (Labels are printed) on in a general purpose LED board where the Labels are also displayed in the LED Display.
- 6) The TAKT board can also be networked with a consolidated display displaying data from all the individual board that are all over the factory.
- 7) The display data can also be downloaded to a PC for reporting.
- 8) The TAKT Boards can also be designed to use Jumbo display modules to increase visibility for the entire factory.
- 9) The hardware can be built to any specification, from ruggedness to Water and Tamper resistance etc like IP65.
- 10) The Boards can be driven using RS422 / RS485 or Ethernet / Wi-Fi.
- 11) We offer Red, Red+Green or Full Color boards.
- 12) Our solution also includes the software for driving the boards with minimal human intervention. The software is written to be easy and intuitive to use.

Token Display Board

LED : 005

Features

- ❖ With Chime / With Voice option
- ❖ English & Hindi Voice
- ❖ Simple to use
- ❖ 5 meter cable - keypad to display

Communication

Wired

Model Indicator

LED : 006

Features

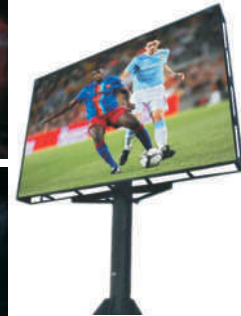

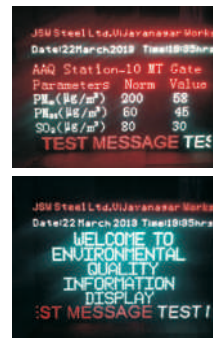

- ❖ Preprogrammed data for each field
- ❖ Selection from your PLC
- ❖ Simple shorting for display
- ❖ Edit of data from your PC (optional)

Communication

PFC / DC in

Full / Tri colour outdoor board

LED : 007

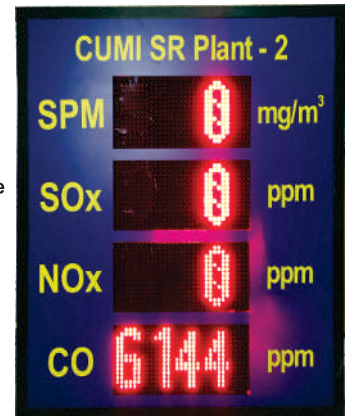

Features

- ❖ Display of online pollution parameters
- ❖ Single / Tricolour / Full colour options
- ❖ IP65 rated
- ❖ Day light visibility
- ❖ Integration with your ERP / Online systems

4-20 mA to Digital Conversion LED display - 4 Channels

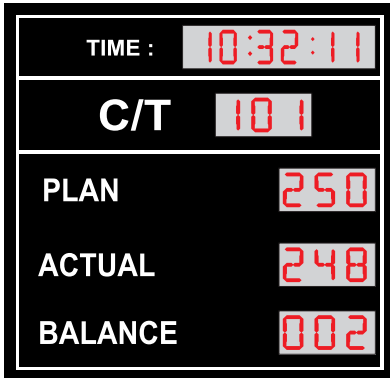

Client - CUMI

- * 4 Channels
 - * Range for Each channel independently configurable
 - * Zero point calibration by software
 - * 140mm digit high
- High Bright Matrix Display

LED : 008

Real Time Production Monitor TAKT Display

Features

- ❖ Day/Shift Target Vs Actual
- ❖ Shift Actual - From your PLC / DC-IN etc.,
- ❖ 50mm 100 mm Character
- ❖ Data logging optional
- ❖ Intelligent System

Communication

IR - Remote
WIRELESS - RF
RS232 RS485

Code : E 001

Organizezy®

Data / Document Management / Display Systems

Clear, neat, systematic & accessible information at the Shop Floor, Assembly Line, QC Departments, Stores Department and Marketing Departments. It is a must to improve Product Quality, Employee Productivity & building Customer Relationship.

Document Display System is widely used for the Display of:

- ❖ ISO / QA Documentation
- ❖ SOP (Standard Operating Procedure)
- ❖ MSDS (Material Safety Data Sheets)
- ❖ GLP (Good Lab Practices)

Organizezy® is a practical tool that can be used in any situation where quantities of important information are needed. Available in A3 / A4 folder formats, information can be easily accessed with these data systems.

Operation manuals, Standard Procedures, Recurring Data, Reference Codes, Price Lists, Stock Levels can be referred easily with the flip of a finger.

Document, Drawing and Plan holders are also available in custom sizes. Send in your requirement by e-mail to sales@factorydisplay.com or visit our show room for a free estimate.

Slim line Rotating Document Tower

Code : D 025

Features

- ❖ Extreme Space Saver
- ❖ Double Sided Display
- ❖ Smooth Rotation
- ❖ Choice of Magnetic/pinup / Writing White Board Surfaces
- ❖ Dismantable
- ❖ Spring loaded foldable ledge (optional)

Rotating Document Magnetic Tower

Code : D 026

Features

- ❖ Space Saving Design
- ❖ Ideal for fast retrieval of document
- ❖ Full Surface attracts Magnets
- ❖ Place A3 / A4 Magnetic Folders
- ❖ Titles for each side
- ❖ Smooth bearing loaded carousel
- ❖ Light Weight
- ❖ Storage area at the bottom (optional)

Acrylic Magnetic Folder - Open

Features

- ❖ Mark without removing document
- ❖ Slide out papers
- ❖ Sticks on any MS surface
- ❖ 5 colour frames

Code : D 027

Plan Hanger / Plan Hanger Stand

Features

- ❖ Extreme Space Saver for Plans
- ❖ Hang drawings A0 / A1 / A2
- ❖ Upto 10 drawings per clip
- ❖ Quick hold and release spring mechanism
- ❖ Convenient handle
- ❖ Front loading stand (optional)
- ❖ Wall mount stand (optional)
